

## RESTORED BEAUTY GETAWAYS

**RESTORED Beauty Getaways** helps people seeking cosmetic, plastic or elective surgery overseas, says director and founder Rebecca Schimpf.

“Having experienced a successful procedure overseas myself, I know that patients can get the right combination of physical skill and expertise, technology and after-care at an affordable price,” she said.

“We’ve developed strong relationships with all our hospital partners and can provide excellent advice to

make the whole process smoother.

“The international private hospitals in our global network are among the most advanced medical facilities in the world.”

Rebecca said a personal program manager was assigned to each case to assist with the inquiry, booking, travel and return stages of the getaway.
